Reading with Your Child

Make books a joyous and important part of your child's life. Read to him every day. Let him talk about the stories. Ask questions about the pictures. Ask him to point out pictured objects that are alike and different in shape and in color. This activity helps children to observe small differences in the shapes of letters and words when learning to read.

Fingerplay

Once I Saw a Little Bird

Once I saw a little bird

Come hop, hop, hop.

Hop two fingers of one hand.

I cried, "Little bird,

Will you stop, stop, stop!"

Stop hopping on last stop.

I went to the window,

Walk two fingers of other hand.

Saying, "How do you do?"

Wag finger of other hand.

But he shook his little tail,

And away he flew.

Flutter fingers of first hand up over head.

Supplementary Activity

Plant a miniature garden with your child. Buy an easy-to-grow flower or grass and help your child read the directions from the package. Allow your child to measure, pour, and plant. This will not only give your child ownership over the process, but will develop mathematical thinking and fine motor skills as well.
